CANADIAN JOURNAL OF BOTANY

JOURNAL CANADIEN DE BOTANIQUE

Volume 68, 1990

# Contents / Sommaire

JANUARY / JANVIER

ARTICLES

**Opender Koul, Murray B. Isman, and C. M. Ketkar** Properties and uses of neem, *Azadirachta indica* 1

**E. K. Merrill** Structure and development of terminal bud scales in green ash 12

**W. R. Jarvis, S. D. Barrie, J. A. Traquair, and A. Stoessl** Morphological and chemical studies of *Penicillium oxalicum*, newly identified as a pathogen on greenhouse cucumbers 21

**R. R. Bélanger, P. D. Manion, and D. H. Griffin** Amino acid content of water-stressed plantlets of *Populus tremuloides* clones in relation to clonal susceptibility to *Hypoxylon mammatum in vitro* 26

**S. M. Attree, S. Budimir, and L. C. Fowke** Somatic embryogenesis and plantlet regeneration from cultured shoots and cotyledons of seedlings from stored seeds of black and white spruce (*Picea mariana* and *Picea glauca*) 30

**C. von Arb and C. Brunold** Lichen physiology and air pollution. I. Physiological responses of in situ *Parmelia sulcata* among air pollution zones within Biel, Switzerland 35

**B. E. Otrysko, G. J. Banville et A. Asselin** Effet de composés phénoliques et de substances provenant de l'appareil souterrain de la Pomme de terre sur la croissance et la sclérotification *in vitro* du *Rhizoctonia solani* 43

**Jean Dexheimer, Joëlle Gérard, Khadija Boudarga et Christine Jeanmaire** Les plastes des cellules-hôtes des mycorhizes à vésicules et arbuscules 50

**Susan Mason-Apps, W. R. Cummins, and W. Gary Filion** The characterization of the heat-shock response in the arctic plant *Saxifraga cernua* 56

**K. Weis and V. S. Polito** Cytochemistry and ultrastructure of the dehiscence zone of almond (*Prunus dulcis*) fruits 63

**Joëlle Coulaud, Sonja Siljak-Yakovlev et Evelyne Téoulé** Comportement méiotique chez des plantes de Luzerne (*Medicago sativa*) provenant d'une expérience de fusion somatique 73

**Johanne Parent et Pierre J. H. Richard** Morphologie pollinique des Cupressaceae de l'est du Canada et du nord-est des États-Unis appliquée à l'étude des sédiments quaternaires 79

**Joseph R. Newhouse, William L. MacDonald, and Harvey C. Hoch** Virus-like particles in hyphae and conidia of European hypovirulent (dsRNA-containing) strains of *Cryphonectria parasitica* 90

**James S. Coleman, Harold A. Mooney, and William E. Winner** Anthropogenic stress and natural selection: variability in radish biomass accumulation increases with increasing $SO_2$ dose 102

**Raymond D. Fox and George J. Wong** Homothallism and heterothallism in *Tremella fuciformis* 107

**Barry R. Taylor and H. Gerald Jones** Litter decomposition under snow cover in a balsam fir forest 112

**Barbara J. Nicholson and Dale H. Vitt** The paleoecology of a peatland complex in continental western Canada 121

**P. J. Ann and W. H. Ko** Survey of enzyme activity on solid media in *Phytophthora* 139

**Satoki Sakai** The relationship between bud scale morphology and indeterminate and determinate growth patterns in *Acer* (Aceraceae) 144

**M. R. T. Dale** Two-dimensional analysis of spatial pattern in vegetation for site comparison 149

**T. W. Starman, J. W. Kelly, and H. B. Pemberton** Influence of gibberellin $A_3$ and ancymidol on sunflower leaf anatomy 159

**Mercédes Niebla Hernández et Dominique Driss-École** Identification des futures cellules procambiales au cours de l'initiation foliaire chez *Lycopersicon esculentum* 163

**Mercédes Niebla Hernández et Dominique Driss-École** Acide, 2,3,5-triiodobenzoïque (TIBA) et initiation foliaire chez *Lycopersicon esculentum* 167

**Deborah R. Oppenheim and David M. Paterson** The fine structure of an algal mat from a freshwater maritime antarctic lake 174

**Janelle S. Pryor** Delimiting species among permineralized medullosan pteridosperms: a plant bearing *Alethopteris* fronds from the Upper Pennsylvanian of the Appalachian basin 184

**Robert B. Allen and Robert K. Peet** Gradient analysis of forests of the Sangre de Cristo Range, Colorado 193

**B. Thiébaut, B. Comps et E. Teissier du Cros** Développement des axes des arbres : pousse annuelle, syllepsie et prolepsie chez le Hêtre (*Fagus sylvatica*) 202

**R. D. Evans and R. W. Fonda** The influence of snow on subalpine meadow community pattern, North Cascades, Washington 212

NOTES

**G. R. Powell and M. E. Hancox** Occurrence of cones borne laterally on long shoots of *Larix leptolepis* 221

**Ruhama Berliner and John G. Torrey** Erratum: Studies on mycorrhizal associations in Harvard Forest, Massachusetts 223

**Instructions to authors** v

**Recommandations aux auteurs** viii

FEBRUARY / FÉVRIER

ARTICLES

**L. Bernier and M. Hubbes** Mutations in *Ophiostoma ulmi* induced by *N*-methyl-*N'*-nitro-*N*-nitrosoguanidine 225

**L. Bernier and M. Hubbes** Meiotic analysis of induced mutations in *Ophiostoma ulmi* 232

**F. M. Tremblay** Somatic embryogenesis and plantlet regeneration from embryos isolated from stored seeds of *Picea glauca* 236

**James W. Kimbrough and Jack L. Gibson** Ultrastructural and cytological observations of apothecial tissues of *Geopyxis carbonaria* (Pezizales, Ascomycetes) 243

**David D. Cass and George C. Fabi** Early ovule development in *Papaver rhoeas* 258

**S. McIntosh, D. Andrews, Jonathan Moorby, R. G. Thompson, and D. S. Fensom** Changes in metabolism induced in *Helianthus* leaves by sudden hypoxia or chilling stress 266

**Eric A. Allen, P. V. Blenis, and Y. Hiratsuka** Early symptom development in lodgepole pine seedlings infected with *Endocronartium harknessii* 270

**Michèle C. Heath** *In vitro* formation of haustoria of the cowpea-rust fungus *Uromyces vignae* in the absence of a living plant cell. II. Electron microscopy 278

**Sergio R. S. Cevallos-Ferriz and Ruth A. Stockey** Permineralized fruits and seeds from the Princeton chert (Middle Eocene) of British Columbia: Vitaceae 288

**J. D. Thompson, R. Turkington, and F. B. Holl** The influence of *Rhizobium leguminosarum* biovar. *trifolii* on the growth and neighbour relationships of *Trifolium repens* and three grasses 296

**Jianhua Zhang and M. A. Maun** Effects of sand burial on seed germination, seedling emergence, survival, and growth of *Agropyron psammophilum* 304

**L. Reid, J. T. Arnason, and C. Nozzolillo** Resistance of maize germ plasm to European corn borer, *Ostrinia nubilalis*, as related to geographical origin 311

**James W. Kimbrough, Chi-Guang Wu, and Jack L. Gibson** Ultrastructural observations on Helvellaceae (Pezizales, Ascomycetes). IV. Ascospore ontogeny in selected species of *Gyromitra* subgenus *Discina* 317

**Timothy M. Bourett and Richard J. Howard** *In vitro* development of penetration structures in the rice blast fungus *Magnaporthe grisea* 329

**T. Nakajima and J. Abe** A method for assessing resistance to the snow molds *Typhula incarnata* and *Microdochium nivale* in winter wheat incubated at the optimum growth temperature ranges of the fungi 343

**Lloyd E. Ohl, Rodney A. Gont, and Eric D. Dibble** Diatom response to liming of a temperate, brown water lake 347

**David G. Fisher** Leaf structure of *Canaga odorata* (Annonaceae) in relation to the collection of photosynthate and phloem loading: morphology and anatomy 354

**Newton Wainman and Rolf W. Mathewes** Distribution of plant macroremains in surface sediments of Marion Lake, southwestern British Columbia 364

**Peter A. Siver and John R. Glew** The arrangement of scales and bristles on *Mallomonas* (Chrysophyceae): a proposed mechanism for the formation of the cell covering 374

**C. Coulomb, P. J. Coulomb, I. Saimmaime, Y. Lizzi et C. Polian** Caractérisation ultrastructurale d'une résistance induite par un éliciteur d'origine fongique, chez un cultivar sensible de Piment 381

**Sylvie Gauthier et Daniel Gagnon** La végétation des contreforts des Laurentides : une analyse des gradients écologiques et du niveau successionnel des communautés 391

**Larry Hufford** Androecial development and the problem of monophyly of Loasaceae 402

**Arlette Nougarède, Pierre Rondet, Pierre Landré et Robert Saint-Côme** Impact d'un traitement par le cycloheximide sur la reprise du cycle et sur les teneurs en protéines du bourgeon cotylédonaire du Pois réactivé par décapitation 420

**Josep Escarré, Claudie Houssard et Nicole Vartanian** Régulations hydriques comparées de populations de *Rumex acetosella* le long d'un gradient successionnel postcultural 428

**G. L. Barron** A new and unusual species of *Haptoglossa* 435

**Anna M. Colangeli and John N. Owens** The relationship between time of pollination, pollination efficiency, and cone size in western red cedar (*Thuja plicata*) 439

**Paul Y. de la Bastide and Bryce Kendrick** The *in vitro* effects of benomyl on disease tolerance, ectomycorrhiza formation, and growth of white pine (*Pinus strobus*) seedlings 444

**R. Médard** Étude de l'influence de quelques composés chimiques sur le contact parenchyme palissadique – parenchyme lacuneux : répercussion sur la morphogenèse du limbe de *Manihot esculenta* Crantz 449

NOTES

**Edson Eduardo Melo Passos et Jorge Vieira Da Silva** Fonctionnement des stomates de Cocotier (*Cocos nucifera*) au champ 458

**Orlando Petrini, Liliane E. Petrini, Gaston Laflamme, and G. B. Ouellette** Erratum: Taxonomic position of *Gremmeniella abietina* and related species: a reappraisal 460

## MARCH / MARS

ARTICLES

**B. A. D. Hetrick, G. W. T. Wilson, and T. C. Todd** Differential responses of $C_3$ and $C_4$ grasses to mycorrhizal symbiosis, phosphorus fertilization, and soil microorganisms 461

**Anne Stein, J. André Fortin, and Gilles Vallée** Enhanced rooting of *Picea mariana* cuttings by ectomycorrhizal fungi 468

**Ronald W. Davis, J. D. Smith, and B. Greg Cobb** A light and electron microscope investigation of the transfer cell region of maize caryopses 471

**Helen J. Young and Maureen L. Stanton** Temporal patterns of gamete production within individuals of *Raphanus sativus* (Brassicaceae) 480

**N. Arumugam and Sant S. Bhojwani** Somatic embryogenesis in tissue cultures of *Podophyllum hexandrum* 487

**Anne Stein and J. André Fortin** Pattern of root initiation by an ectomycorrhizal fungus on hypocotyl cuttings of *Larix laricina* 492

**C. Potvin, M. J. Lechowicz, G. Bell, and D. Schoen** Spatial, temporal, and species-specific patterns of heterogeneity in growth chamber experiments 499

**D. Sharp, K. S. Braithwaite, J. A. G. Irwin, and J. M. Manners** Biochemical and cytochemical responses of *Stylosanthes guianensis* to infection by *Colletotrichum gloeosporioides*: association of callose deposition with resistance 505

**Thierry Chopin, Annick Hourmant, Jean-Yves Floc'h, and Michel Penot** Seasonal variations of growth in the red alga *Chondrus crispus* on the Atlantic French coasts. II. Relations with phosphorus concentration in seawater and internal phosphorylated fractions 512

**Gordon S. Ringius and David J. Innes** Large disparity in recombination fractions reported in *Picea mariana* for the *Aat-1/Pgi-2* linkage group 518

**R. A. Savidge** Characterization of indol-3-ylacetic acid in developing secondary xylem of 26 Canadian species by combined gas chromatography – mass spectrometry 521

**Cheryl R. Hampson and G. M. Simpson** Effects of temperature, salt, and osmotic potential on early growth of wheat (*Triticum aestivum*). I. Germination 524

**Cheryl R. Hampson and G. M. Simpson** Effects of temperature, salt, and osmotic potential on early growth of wheat (*Triticum aestivum*). II. Early seedling growth 529

**Karen M. Snetselaar and Kenneth D. Whitney** Fungal calcium oxalate in mycorrhizae of *Monotropa uniflora* 533

**Daniel M. Baker and Tadesse Mebrahtu** Scanning electron microscopy examination of soybean hilum development 544

**Mark Brundrett, Gracia Murase, and Bryce Kendrick** Comparative anatomy of roots and mycorrhizae of common Ontario trees 551

**H. B. Massicotte, R. L. Peterson, C. A. Ackerley, and L. H. Melville** Structure and ontogeny of *Betula alleghaniensis* – *Pisolithus tinctorius* ectomycorrhizae 579

**James P. Braselton** Ultrastructure and karyology of *Teramyxa parasitica* (Plasmodiophoromycetes) 594

**M. J. Dickinson, C. R. Wellings, and A. Pryor** Variation in the double-stranded RNA phenotype between and within different rust species 599

**Johan F. Ferreira and F. H. J. Rijkenberg** Ultrastructural morphology of the uredium and collar formation during urediosporogenesis of *Uromyces transversalis* on gladiolus 605

**Ernest Small, Brenda Brookes, and Per Lassen** Circumscription of the genus *Medicago* (Leguminosae) by seed characters 613

**Marcia J. Waterway** Systematic implications of achene micromorphology in *Carex* section *Hymenochlaenae* (Cyperaceae) 630

**T. W. Darmono and J. L. Parke** Chlamydospores of *Phytophthora cactorum*: their production, structure, and infectivity 640

**I. Ockenden and J. N. A. Lott** Elemental storage in *Cucurbita* embryos: X-ray microanalysis of magnesium, potassium, calcium, and phosphorus within globoid crystals 646

**P. E. Hennon, E. M. Hansen, and C. G. Shaw III** Dynamics of decline and mortality in *Chamaecyparis nootkatensis* in southeast Alaska 651

**Daniel J. Perry and Peggy Knowles** Evidence of high self-fertilization in natural populations of eastern white cedar (*Thuja occidentalis*) 663

**A. Pryor, M. G. Boelen, M. J. Dickinson, and G. J. Lawrence** Widespread incidence of double-stranded RNAs of unknown function in rust fungi 669

**Denis Barabé et Joachim Vieth** La torsion de contrainte et le modèle phyllotaxique de Jean 677

**G. L. Barron, C. Morikawa, and M. Saikawa** New Cephaliophora species capturing rotifers and tardigrades 685

**G. L. Barron** A new predatory Hyphomycete capturing copepods 691

**Jeffrey G. Duckett, Karen S. Renzaglia, and Keith Pell** Desiccation causes the proliferation of multicellular hairs, but not mucilage papillae, in *Cryptothallus mirabilis* (Hepatophyta): a correlated light and electron microscope study 697

## APRIL / AVRIL

ARTICLES

**Christopher S. Lobban** Marine tube-dwelling diatoms of the Pacific coast of North America. II. *Navicula* subg. *Navicula* and a key to the tube-dwelling diatoms of the region 707

**K. N. Chandra Sekhar and V. K. Sawhney** Regulation of the fusion of floral organs by temperature and gibberellic acid in the normal and solanifolia mutant of tomato (*Lycopersicon esculentum*) 713

**P. A. Hayes, T. A. Steeves, and B. R. Neal** An architectural analysis of *Shepherdia canadensis* and *Shepherdia argentea* (Elaeagnaceae): the architectural models 719

**Miroslav M. Grandtner et Camille Gervais** Étapes initiales du développement *in situ* de *Claytonia caroliniana* var. *caroliniana* 726

**D. B. O. Savile** Relationships of Poaceae, Cyperaceae, and Juncaceae reflected by their fungal parasites 731

**Christer Nilsson and Gunnel Grelsson** The effects of litter displacement on riverbank vegetation 735

**G. Guerrier et D. G. Strullu** Développement d'axes embryonnaires de pois pourvus ou dépourvus de réserves 742

**Margaret Birdsall and Ronald D. MacLeod** Early growth of the root system in *Allium cepa* 747

**S. Jerry Skoglund** Seed dispersing agents in two regularly flooded river sites 754

**I. L. Brunner, F. Brunner, and O. K. Miller, Jr.** Ectomycorrhizal synthesis with Alaskan *Alnus tenuifolia* 761

**Conrad Richter and Jack Dainty** Ion behaviour in plant cell walls. III. Measurement of the mean charge separation distance and the linear charge density parameter in delignified *Sphagnum russowii* cell walls 768

**Conrad Richter and Jack Dainty** Ion behaviour in plant cell walls. IV. Selective cation binding by *Sphagnum russowii* cell walls 773

**D. S. Decker-Walters, T. W. Walters, U. Posluszny, and P. G. Kevan** Genealogy and gene flow among annual domesticated species of *Cucurbita* 782

**Scott L. Collins** Habitat relationships and survivorship of tree seedlings in hemlock–hardwood forest 790

**A. M. Berry and M. E. McCully** Callose-containing deposits in relation to root-hair infections of *Alnus rubra* by *Frankia* 798

**Louise S. O'Donoughue, J. V. Raelson, and W. F. Grant** A morphological study of interspecific hybrids in the genus *Lotus* (Fabaceae) 803

**D. J. S. Barr and N. L. Désaulniers** The life cycle of *Lagena radicicola*, an oomycetous parasite of wheat roots 813

**Robert L. Doudrick, Elwin L. Stewart, and Alvin A. Alm** Survey and ecological aspects of presumed ectomycorrhizal fungi associated with black spruce in northern Minnesota 825

**William H. Parker and Timothy A. Dickinson** Range-wide morphological and anatomical variation in *Larix laricina* 832

**Jean-Claude Fournioux et Roger Bessis** Éléments du contrôle de la morphogenèse de la vigne *in vitro* : sympodisation 841

**Hélène Gilbert** Productivité végétale dans un marais intertidal d'eau douce, Québec (Québec) 852

**Hélène Gilbert** Éléments nutritifs (N et P), métaux lourds (Zn, Cu, Pb et Hg) et productivité végétale dans un marais intertidal d'eau douce, Québec (Québec) 857

**Bradley R. Kropp** Variation in acid phosphatase activity among progeny from controlled crosses in the ectomycorrhizal fungus *Laccaria bicolor* 864

**Gilda Bellolio-Trucco and Robert R. Ireland** A taxonomic study of the moss genus *Dicranum* (Dicranaceae) in Ontario and Quebec 867

**Yolande Dalpé** *Endogone pisiformis* : croissance, morphologie et conservation des cultures 910

**M. Reinhold, M. E. Bjarko, D. C. Sands, and H. E. Bockelman** Changes in resistance to powdery mildew in a barley composite cross 916

**G. Daniel, B. Pettersson, T. Nilsson, and J. Volc** Use of immunogold cytochemistry to detect Mn(II)-dependent and lignin peroxidases in wood degraded by the white rot fungi *Phanerochaete chrysosporium* and *Lentinula edodes* 920

**Almin Li and Michèle C. Heath** Effect of intercellular washing fluids on the interactions between bean plants and fungi nonpathogenic on beans 934

**Joan E. Krochko, Marc R. Charbonneau, Kelsye M. Coulter, Stephen R. Bowley, and J. Derek Bewley** A comparison of seed storage proteins in subspecies and cultivars of *Medicago sativa* 940

## MAY / MAI

ARTICLES

**J. H. M. Willison, M. I. N. Zhang, and L. V. Gusta** A freeze-fracture study of the influence of frost hardening treatments on the plasma membranes of *Medicago sativa* and *Bromus inermis* cell suspension cultures 949

**Deborah D. Shushu and Elizabeth G. Cutter** Growth of the gynophore of the peanut *Arachis hypogaea*. 1. Intact and decapitated gynophores 955

**Deborah D. Shushu and Elizabeth G. Cutter** Growth of the gynophore of the peanut *Arachis hypogaea*. 2. Regulation of growth 965

**Sylvie Laliberté and Maurice Lalonde** Histology and ultrastructure of caulogenic callus cultures of *Larix* × *eurolepis* 979

**Om P. Rajora** Marker allozyme genes and alleles for differentiation of *Populus deltoides*, *P. nigra*, *P. maximowiczii*, and their interspecific hybrids 990

**Patricia Warne, R. D. Guy, Lorna Rollins, and D. M. Reid** The effects of sodium sulphate and sodium chloride on growth, morphology, photosynthesis, and water use efficiency of *Chenopodium rubrum* 999

**Christopher Neill** Effects of nutrients and water levels on emergent macrophyte biomass in a prairie marsh 1007

**Christopher Neill** Effects of nutrients and water levels on species composition in prairie whitetop (*Scolochloa festucacea*) marshes 1015

**Jinliang Li, I. Brent Heath, and Tom Bauchop** ***Piromyces mae*** and ***Piromyces dumbonica***, two new species of uniflagellate anaerobic chytridiomycete fungi from the hindgut of the horse and elephant 1021

**Roy Turkington** The influence of grass root systems on growth and form of *Trifolium repens* 1034

**Ronald Toth, Deborah Toth, David Starke, and David R. Smith** Vesicular–arbuscular mycorrhizal colonization in *Zea mays* affected by breeding for resistance to fungal pathogens 1039

**Marvin C. Williams and Robert W. Lichtwardt** Trichomycete gut fungi in New Zealand aquatic insect larvae **1045**

**Robert W. Lichtwardt and Marvin C. Williams** Trichomycete gut fungi in Australian aquatic insect larvae **1057**

**Dalia T. Kudirka and Peter L. Webster** Temporal differences in cellular activity between tissues of the petal of *Tradescantia* clone 4430 **1075**

**Roberta Parish, Roy Turkington, and Elena Klein** The influence of mowing, fertilization, and plant removal on the botanical composition of an artificial sward **1080**

**D. R. Roberts, B. C. S. Sutton, and B. S. Flinn** Synchronous and high frequency germination of interior spruce somatic embryos following partial drying at high relative humidity **1086**

**R. Hébant-Mauri** The branching of *Trichomanes proliferum* (Hymenophyllaceae) **1091**

**Jonathan T. Brassard and Daniel J. Schoen** Analysis of phenotypic selection among locations in *Impatiens pallida* and *Impatiens capensis* **1098**

**Les C. Cwynar** A late Quaternary vegetation history from Lily Lake, Chilkat Peninsula, southeast Alaska **1106**

**Gary W. Moorman, James L. Rosenberger, and Leslie A. Gladstone** Comparison of two air temperature based models for predicting phenophase occurrence in Persian lilacs (*Syringa chinensis*) cultivar Red Rothomagensis **1113**

**R. L. Peterson and R. S. Currah** Synthesis of mycorrhizae between protocorms of *Goodyera repens* (Orchidaceae) and *Ceratobasidium cereale* **1117**

**C. P. Chanway, F. B. Holl, and R. Turkington** Specificity of association between *Bacillus* isolates and genotypes of *Lolium perenne* and *Trifolium repens* from a grass – legume pasture **1126**

**K. S. Rao and U. Kristen** The influence of the detergent Triton X-100 on the growth and ultrastructure of tobacco pollen tubes **1131**

**Ragan M. Callaway, Scott Jones, Wayne R. Ferron, Jr., and Anuja Parikh** Ecology of a mediterranean-climate estuarine wetland at Carpinteria, California: plant distributions and soil salinity in the upper marsh **1139**

**D. W. Larson** Effects of disturbance on old-growth *Thuja occidentalis* at cliff edges **1147**

**Cheryl A. Ingersoll and Mark V. Wilson** Buried propagules in an old-growth forest and their response to experimental disturbances **1156**

**D. Eisikowitch, M. A. Lachance, P. G. Kevan, S. Willis, and D. L. Collins-Thompson** The effect of the natural assemblage of microorganisms and selected strains of the yeast *Metschnikowia reukaufii* in controlling the germination of pollen of the common milkweed *Asclepias syriaca* **1163**

NOTE

**Paul G. Fields, John T. Arnason, and R. Gary Fulcher** The spectral properties of *Hypericum perforatum* leaves: the implications for its photoactivated defences **1166**

JUNE / JUIN

ARTICLES

**R. S. Currah, E. A. Smreciu, and S. Hambleton** Mycorrhizae and mycorrhizal fungi of boreal species of *Platanthera* and *Coeloglossum* (Orchidaceae) **1171**

**M. Esther Sanchez-Coronado, Emmanuel Rincòn, and Carlos Vàzquez-Yanes** Growth responses of three contrasting *Piper* species growing under different light conditions **1182**

**Tuulikki Grönlund, Guy Lortie, Jean-Pierre Guilbault, Michel A. Bouchard, and Matti Saarnisto** Diatoms and arcellaceans from Lac du Cratère du Nouveau-Québec, Ungava, Québec, Canada **1187**

**Leslie J. Matthews and Thomas M. Davis** Anatomical comparison of wild-type and non-nodulating mutant chickpea (*Cicer arietinum*) **1201**

**Ronald E. Dengler and Nancy G. Dengler** Leaf vascular architecture in the atypical $C_4$ NADP – malic enzyme grass *Arundinella hirta* **1208**

**Nancy G. Dengler, Ronald E. Dengler, and Douglas J. Grenville** Comparison of photosynthetic carbon reduction (Kranz) cells having different ontogenetic origins in the $C_4$ NADP – malic enzyme grass *Arundinella hirta* **1222**

**J. G. Chmielewski, C. C. Chinnappa, and B. G. Warner** Pollen morphology of North American species of *Antennaria* (Asteraceae: Inuleae) **1233**

**Manuela Giovannetti and Lucia Lioi** The mycorrhizal status of *Arbutus unedo* in relation to compatible and incompatible fungi **1239**

**D. J. Jacobson and T. R. Gordon** Further investigations of vegetative compatibility within *Fusarium oxysporum* f.sp. *melonis* **1245**

**Y. Tosa, T. Akiyama, and H. Ogura** Cytological aspects of interactions between formae speciales of *Erysiphe graminis* and genera of gramineous plants, and their evolutionary implications **1249**

**H. H. Kope and J. A. Fortin** Antifungal activity in culture filtrates of the ectomycorrhizal fungus *Pisolithus tinctorius* **1254**

**G. Bécard and Y. Piché** Physiological factors determining vesicular–arbuscular mycorrhizal formation in host and nonhost Ri T-DNA transformed roots **1260**

**Gilles Gay** Effect of the ectomycorrhizal fungus *Hebeloma hiemale* on adventitious root formation in derooted *Pinus halepensis* shoot hypocotyls **1265**

**Esther Gedalovich-Shedletzky and Job Kuijt** An ultrastructural study of the tuber strands of *Balanophora* (Balanophoraceae) **1271**

**G. I. McIntyre and A. I. Hsiao** The role of expanded leaves in the correlative inhibition of axillary buds in milkweed (*Asclepias syriaca*) **1280**

**D. R. Lee** A unidirectional water flux model of fruit growth **1286**

**Anthony G. Miller, George S. Espie, and David T. Canvin** Physiological aspects of $CO_2$ and $HCO_3^-$ transport by cyanobacteria: a review **1291**

**Aaron Kaplan** Analysis of high $CO_2$ requiring mutants indicates a central role for the 5′ flanking region of *rbc* and for the carboxysomes in cyanobacterial photosynthesis 1303

**P. W. Sutherland, I. C. Hallett, S. L. Parkes, and M. D. Templeton** Structural studies of asparagus spear infection by *Stemphylium* 1311

**Calvin J. Heusser** Late Quaternary vegetation of the Aleutian Islands, southwestern Alaska 1320

**Sergio R. S. Cevallos-Ferriz and Ruth A. Stockey** Vegetative remains of the Magnoliaceae from the Princeton chert (Middle Eocene) of British Columbia 1327

**F. C. Guinel and T. A. LaRue** Formation of wall appositions in leaves and lateral roots of an iron-accumulating pea mutant 1340

**Jacob Garty** Influence of epilithic microorganisms on the surface temperature of building walls 1349

**U. P. Singh, V. N. Pandey, K. C. Wagner, and K. P. Singh** Antifungal activity of ajoene, a constituent of garlic (*Allium sativum*) 1354

**R. C. Ploetz** Variability in *Fusarium oxysporum* f.sp. *cubense* 1357

**Marcelo A. Aizen and Alejandra Kenigsten** Floral sex ratios in scrub oak (*Quercus ilicifolia*) vary with microtopography and stem height 1364

**R. J. Hebda and C. C. Chinnappa** Pollen morphology of the Rosaceae of western Canada. III. *Geum* 1369

**Laura A. Sadowski and Martha J. Powell** Cytochemical detection of polysaccharides in zoospores of *Aphanomyces euteiches* 1379

**Randall J. Bayer** A phylogenetic reconstruction of *Antennaria* (Asteraceae: Inuleae) 1389

**Akira F. Peters** Taxonomic implications of gamete fusions in the parasitic brown alga *Herpodiscus durvillaeae* 1398

JULY / JUILLET

**Systematics and ecology of the genus *Carex* (Cyperaceae)**
**A symposium sponsored by the Systematics and Phytogeography Section of the Canadian Botanical Association**

**Systématique et écologie du genre *Carex* (Cyperaceae)**
**Un symposium parrainé par la Section de systématique et de phytogéographie de l'Association botanique du Canada**

**P. M. Catling, A. A. Reznicek, and W. J. Crins** Introduction 1405

**A. A. Reznicek** Evolution of sedges (*Carex*, Cyperaceae) 1409

**W. J. Crins** Phylogenetic considerations below the sectional level in *Carex* 1433

**J. M. Bernard** Life history and vegetative reproduction in *Carex* 1441

**L. A. Standley** Anatomical aspects of the taxonomy of sedges (*Carex*, Cyperaceae) 1449

**J. R. Manhart** Chemotaxonomy of the genus *Carex* (Cyperaceae) 1457

**P. W. Ball** Some aspects of the phytogeography of *Carex* 1462

ARTICLES

**Ernest Small** ***Medicago syriaca***, a new species 1473

**Mahesh K. Upadhyaya and David W. Konesky** Amino acid activity in the Nelson–Somogyi glucose assay 1479
